Shri. Pralhad P. Chhabria

(12.03.1930 - 05.05.2016)

**"I have not gone, just moved on.
Each morning we are born again to work hard &
live another beautiful journey..."**

Late Shri. Pralhad P Chhabria and Finolex

Finolex began as a trading operation started by the late Shri. Pralhad Parsram Chhabria in Pune in the early 1950s. The Finolex brand was born from two words, 'fine' and 'flexible'. It was a simple, straightforward name which coincidentally best reflected his personality. Today, more than six decades on, it continues to be a fundamental attribute of the company.

Pralhad Parsram Chhabria, referred to as PP, was born in Karachi on 12 March 1930, into a wealthy business family. As a child, he spent happy times in his native town of Shikarpur, the love for which he carried to the end of his days. However, when he was just twelve years old, his father died suddenly, and the young boy's life was to take a dramatic turn. Within a few short months, the family were left penniless. PP was forced to leave school, and consequently his carefree days. He had to take up a series of menial jobs in order to help provide for the family.

In 1945, at the age of fifteen, he came to Pune. He lived with some relatives, and worked in their home and business, in order to earn his keep.

Two years later, the events following Partition caused his mother and brothers to flee from their home in Sindh and join him in Pune. In order to restore the dignity and independence of the family, PP was forced to start trading as the quickest means to earn money, just like many other young children from the displaced families who had left their homes empty handed.

He soon began trading in electrical switches. In those days, Pune had no specific electrical market as is the case today. He got used to being ignored by the shopkeepers, learning to wait quietly outside until he saw a few good sales taking place, before entering and showing his merchandise. He never took 'no' to indicate complete refusal, and always returned to try again another day, learning how to make the customer feel important without debasing himself, and never allowing the feeling of rejection to influence his next action.

As the market developed in Pune, PP thought about entering the field of manufacturing. His younger brother, Shri. Kishan P Chhabria, joined him.

By the end of 1959, focus shifted to manufacturing and Finolex began introducing innovative and lucrative products. One of the most important was that of automobile wire. Over the years, the PVC auto cable became one of the company's most successful products.

By 1967, PP came across an ailing company, Alfa Rubber, he seized the opportunity to buy it, by the end of 1973, the company name was changed to Finolex Cables Ltd.

As the 1970s progressed, the Finolex business and brand were well established and the company intensified its core business, while continuing to diversify into new products and technologies. By 1981, Finolex Industries was registered with thirteen lines of PVC pipes, along with pipe fittings of all types.

As the business continued to grow, PP realised that he needed to cultivate the Finolex dealer network. He personally selected distributors. These dealers and the ones that followed are the pillars of Finolex's strength, to this day. His personal interaction with them created a feeling of belonging and being a part of the Finolex family.

Finolex introduced many innovative solutions such as jelly-filled telecom cables and drip irrigation.

In 1982, it was time to take Finolex Cables to the public, and the result is history: an overwhelming response with the issue oversubscribed sixty-four times. PP Chhabria was appointed Chairman and MD of the company.

Through all the years of struggle ahead, PP monitored the dates on which the loan repayments were due, never overstepping on even a single occasion. This was not done to save extra interest or penalty, but with the single-minded focus of building credibility. It was the company's solid credit history which gave it one of its most important intangible assets and later became the foundation for its exponential growth.

By 1990 PP's son Prakash joined the business, followed by KP's son's Vijay and Deepak in 1991. For nearly a decade, it had been PP's dream to manufacture PVC resin. KP set up an internal team and alongwith Udhe GmbH, a German technology construction company, a process licence was acquired from Hoechst AG, to set up Finolex's petrochemical plant in Ratnagiri in Maharashtra on the west coast of India.

Being conscious of the importance of education, PP initiated the construction of an Engineering and Management college, the Finolex Management Academy at Ratnagiri.

In his last few years he had withdrawn from active business and devoted himself to philanthropy through his family's registered bodies, Mukul Madhav Foundation and Hope Foundation and Research Centre, active in the fields of medical assistance, education and social welfare.

There were two things that gave PP Chhabria the confidence to set and achieve increasingly ambitious goals. One was Finolex's consistent track record of success and his clear perception of the opportunities before him. The other was his deeply spiritual nature. In his mid-forties he met Swami Ram Baba and was accepted as a disciple. Through the difficult business times and personal tragedies he faced, his Guru was a constant support.

Today MBA schools teach their students concepts such as 'Walk the Talk' and 'Go the Extra Mile'. For PP Chhabria, who had no MBA degree, these were simple precepts by which he lived his life. As his wealth and status grew, he maintained a simple daily routine: waking and sleeping early, avoiding social entertainment, and interacting with others with warmth and humility regardless of their position. Until just a few weeks before he died on 5 May 2016, he continued to spend half of every working day at his office. After him, Finolex will continue to nurture the value system that forms the greatest part of his legacy: customer care, strategic growth, sustainability and – critical in today's world of rapid technological change – constant innovation.

Chairman's Message

The strong foundations laid out by my father Late Shri Pralhad P. Chhabria and our highly ethical and value based approach towards business have helped us to become one of India's most admired companies. As we continue on the path of progress, my father's philosophy "Each morning we are born again to work hard and live another beautiful journey" will always guide us along the way.

Our financial performance during the year under review has been robust. The profit after tax has gone up from ₹ 47.8 crores to ₹ 233.6 crores and we have reduced debt by more than ₹ 400 crores during the year under review through internal generation.

This year, for the first time, your Company has consolidated the financial results of our associate company viz. Finolex Plasjon Industries Private Limited in accordance with the provisions of the Companies Act.

Your Company continues to maintain its number one position in the PVC pipes industry. Being India's leading PVC pipes and fittings manufacturer with a high brand recall and a strong distribution reach, your Company is well positioned to gain from various initiatives of the Government of India, towards development of infrastructure in irrigation and housing. We are on track in terms of expanding our scale of operations not only by increasing production capacity, but also by setting up additional warehouses.

Your Company has been conducting CSR activities for many years in association with Mukul Madhav Foundation, our CSR Partner. We have been engaging not only with the communities living around our plants' but also with the public at large, through various initiatives in health care, education, water conservation and sustainability. I am happy to share with you that your Company has recently been honoured with the Bluedart Global CSR Excellence and Leadership Award, for "Support & Improvement in the Quality of Education" and the India CSR Award for "Best Innovative CSR Practices in Education". These awards were won for our project, Mukul Madhav Vidyalaya, an English medium school in Golap, Ratnagiri, providing quality education to over 500 students.

Mr. Saurabh S. Dhanorkar, Managing Director is to retire on 30th November, 2016 after 33 years of dedication to the Company. The Board and I appreciate Mr.Dhanorkar's loyalty and commitment to our Company. Furthermore, the proposal to appoint Mr. Sanjay S. Math, Director (Operations) as Managing Director with effect from 1st December, 2016 has been recommended to the Members.

The Board joins me in expressing deep appreciation to all our employees and the management for their consistent hard work and valued contribution during the year.

With warm regards,
Prakash P. Chhabria

Management Discussion and Analysis

(Forming part of the Report of the Directors for the year ended 31st March, 2016)

Industry structure, overview and developments

Indian Economy

India emerged as the world's fastest-growing major economy in FY2016 ahead of China. India's Gross Domestic Product (GDP) is estimated to have grown at 7.5% in FY 2015-16 as per the reports.

The improvement in India's economic fundamentals has accelerated in the year 2015-16 with the combined impact of strong government reforms, the RBI's inflation focus, supported by benign global commodity prices.

Public investment has picked up with a faster clearance of key projects; better infrastructure and greater ease of doing business are promoting private investment, and more generous benefits and wages for public employees are supporting private consumption.

According to a report released in September 2015, India could grow at a potential 8% on average from fiscal 2016 to 2020 powered by greater access to banking, technology adoption, urbanisation and other structural reforms.

Agriculture Sector

The agriculture sector is the backbone of the Indian economy. Over 58 % of rural households depend on agriculture as their principal means of livelihood. Agriculture, along with fisheries and forestry, is one of the largest contributors to the Gross Domestic Product (GDP).

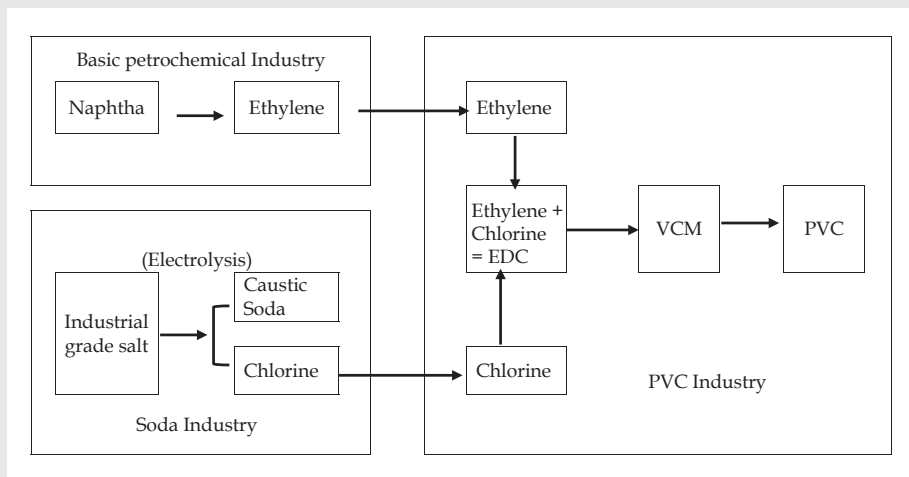

At 157.35 million hectares, India holds the second largest agricultural land in the world. Only 46% of the land is irrigated while 54% is still dependant on the monsoon. This is a huge opportunity the company is trying to capitalise on.

After two consecutive years of drought, the monsoon is estimated to be normal for FY16-17. The agriculture sector is estimated to grow at 6% in the case of a normal monsoon, as per NITI Ayog.

The 2016-17 budget witnessed a slew of measures brought in to improve agriculture and increase farmers' welfare. One such proposal was for 2.95 million hectares of land to be brought under irrigation. This would generate demand for PVC pipes and fittings, which would be of great benefit to your company.

PVC Resin

Fundamentally, PVC is a synthetic resin made from the polymerization of vinyl chloride. PVC is a product which is derived at the end of the value chain (ref fig 1) that begins with industrial grade salt (NaCl). Caustic and chlorine are produced from the salt. Chlorine and ethylene gives EDC, which is used to produce VCM. PVC is derived from VCM.

Figure 1 – PVC value chain**Global Scenario**

In the last century, the industry grew at a substantial rate coupled with an increase in production capacity from a few thousand tons in the 1930s to 50 mn tons today.

Figure 2 – Global PVC capacity break-up (%)

Growth in demand is expected to be concentrated in developing countries in Asia, Africa and Latin America. The per capita consumption in India of 2kg is low compared to 11.8kg per capita in the US and 10.3 kg per capita in China (ref to figure 3). The forecasts for the PVC industry are bright. The global market, currently at US\$ 56 billion, is expected to reach a revenue of US\$65 billion in 2019, with the average annual demand expected to increase by 3.9%.

Figure 3 – Per capita consumption of Suspension PVC

The global consumption of PVC in 2014 was estimated at 40 million tons. The region-wise break-up is given below.

Figure 4 – Global PVC demand break-up

Indian Scenario

The PVC industry in India is valued at over Rs. 20,000 crores with five major producers and over 6,000 processors, employing tens of thousands of people, making consumer and industrial products.

Finolux Industries Ltd is one of the largest PVC resin producer in India with a capacity of 272,000 MTPA.

PVC is the third largest plastic in production and consumption globally. A key feature of PVC is that it can be combined with additives and fabricated into a wide variety of forms. These include pipes and fittings, profiles and tubes, windows and doors, sidings, wires and cables, films and sheets, toys and other moulded products and floorings.

In India, the main driver for PVC consumption is irrigation and construction. PVC pipes & fittings, which constituted only 14% of the total PVC consumption in 1975, has grown to over 70% now.

Raw Material

43 % of PVC's content comes from oil, the balance 57% comes from salt, meaning that PVC is less dependent on fossil fuels compared to other materials. Crude oil prices went down from \$65/barrel in April'15 to \$35/barrel in March'16. While Crude oil prices went down 46% in the last one year, PVC prices decreased only 9% during the same period.

EDC

Ethylene dichloride (EDC) is the main raw material for the production of PVC. While EDC is a derivative of crude, it follows its own demand supply equation.

The total traded EDC (Ethylene Di-chloride) demand is around 2.3 MT per annum. A high demand for caustic soda has led to establishing large Chlor Alkali projects, which can produce chlorine as a by-product. Chlorine is a hazardous chemical and cannot be transported, and hence it is used in making EDC. Additional EDC capacities are expected to come up over the next two years. This is expected to keep EDC prices low.

VCM

Vinyl Chloride Monomer (VCM) is an intermediate in EDC to PVC chain and is also used as a feedstock for the production of PVC. The international demand and supply of VCM is very balanced. Generally international VCM prices follow the international PVC prices quite closely. Moving forward your company expects the availability of VCM to be adequate, and the delta between the VCM and the PVC price is expected to be stable.

PVC Pipes Market

The major end users for PVC pipes and fittings in India are irrigation, water infrastructure, and housing. Due to the increasing demand from these sectors, the PVC pipes and fittings industry has been growing rapidly since the past several years and during the period from FY 2009 to FY 2016 the growth has been at a double digit rate. In terms of volume, the PVC pipes market is 1.8 million MT in India and highly fragmented with the presence of a large number of players in the unorganised sector. The ratio of organised and unorganised sector is around 60:40 and your company has a 25% market share in the organised sector. There has been a rapid shift from

unorganised to the organised sector in the last couple of years. This will further increase with the implementation of GST.

Opportunities

Agriculture segment

The Government of India has launched various programs in the agriculture sector focusing on increasing irrigation, farmer's income, and production. These schemes and programs will give impetus to demand for pipes & fittings. The Union Budget 16-17 was focused on boosting the rural economy, announcing higher spending in the agri sector to boost demand. In a bid to double farmers' income in the next five years, the government has allocated INR 35,984 crore to the farming sector. The government, in FY17, has an all-time high target of INR 9 lakh crore for agri credit. Implementation of 89 irrigation projects under AIBP, which have been languishing, will be fast tracked. These projects require Rs.17,000 crore next year and Rs.86,500 crore over the next five years.

Government Schemes -

'Pradhan Mantri Krishi Sinchai Yojana' (PMKSY)-

Some of the objectives of the scheme

- Convergence of investments in irrigation
- Expand cultivable area under irrigation (Har Khet ko pani)
- Improve on-farm water use efficiency (Jal Sinchan),
- Sustainable water conservation practices(Jal Sanchay)
- Greater private investments in irrigation

PMKSY will be implemented in mission mode and 28.5 lakh hectares of land will be brought under irrigation under this scheme. This will create a demand for PVC pipes & fittings.

As per PMKSY, in Maharashtra, only 19% of the total sown area has irrigation facility against the national average of 46%. Maharashtra being the largest market, your company tends to benefit from this scheme.

Jalayukt Shivar

The State Govt. declared a drought in Maharashtra in Oct'15. An estimated INR 1.35 tn will be needed in the next five years to fight the drought. The Maharashtra State Govt. has started "Jalayukta Shivar" which covers localised, smaller, & need-based water management programmes.

Sardar Sarovar Narmada Nigam

The Gujarat State Government has increased the allocation to the irrigation sector from ~₹ 40 billion to ~₹ 90 billion under Sardar Sarovar Narmada irrigation project and allocated ~₹ 52 billion for other ongoing water resource schemes.

Organic farming

To increase crop yields in rain fed areas, which account for nearly 54% of the country's arable land, organic farming is being promoted. Towards this end, the Government has launched two

important schemes. The first, the 'Parmparagat Krishi Vikas Yojana' which will bring 5 lakh acres of land under organic farming over a three year period. The second is the launch of a value chain based organic farming scheme called "Organic Value Chain Development in North East Region". The emphasis is on value addition, so that organic produce grown in these parts finds domestic and export markets.

Non Agriculture Segment

The demand for PVC pipes and fittings in the Non Agri segment is expected to grow on account of the following schemes initiated by the Government.

Housing for all by 2022

Housing for all by 2022 will provide 20 million houses in urban areas and 40 million houses in rural areas. The Government in the Union Budget 16-17 has launched various schemes to incentivise home buyers. While the real estate sector is seeing a downturn in urban areas, rural areas are still unaffected. As your company has a wide dealer network, we expect a good demand for PVC pipes & fittings.

Swachh Bharat Mission

Swachh Bharat Mission (SBM) is another flagship programme of the Government aimed to focus on improving sanitation facilities through the construction of individual household latrines (IHHL), cluster toilets and community toilets (especially via PPP mode). Solid and liquid waste management is also an important component of the programme. The government has also allocated a total of Rs 1,96,000 crore to SBM. Lack of sanitation and drinking water facility amongst ~13 crore households creates a huge opportunity for PVC pipes.

Figure 5 : Number of toilets constructed each year for individual rural households

AMRUT: Atal mission for Rejuvenation of urban transport:

The government has also launched its programme Atal Mission for Rejuvenation and Urban Transformation (AMRUT) to provide basic services to households and to build amenities in our cities. One of the purposes of AMRUT is to ensure that every household has access to a steady supply of tap water and sewerage facilities. The 'High Powered Expert Committee' has estimated that Rs 39.2 lakh crore is required for the creation of urban infrastructure, including Rs 8 lakh crore for services, such as water supply, sewerage, solid waste management and storm water drains.

Goods and Services Tax (GST)

GST, whenever implemented, would benefit the organised sector players of the PVC pipes and fittings industry. Currently, approximately 40% of the market share is held by the unorganised sector. With a single unified tax rate, the margins currently enjoyed by the unorganised sector, manufacturing inferior quality pipes and fittings will shrink to a great extent. This will make it difficult, if not impossible for the unorganised sector to survive. Our view is that once GST is introduced, the share of the unorganised sector could go down significantly benefitting your company.

New Products

Your company has launched new pipes and fittings in various sizes. The total number of SKU stands at more than 1200.

We are also looking at exploiting the brand equity and strong dealer network that your company has, by introducing new products in the area of water management. Your company is in talks with many companies around the world for various products.

Strategy

Capacity Expansion: Your Company is on track with the capacity expansion plans. This year we have added 30,000MT capacity of pipes and fittings spread across three plants.

Margin Improvement:

Your Company has expanded its existing range of products during the year. The fittings segment is growing at over 20% p.a. and the company is on track to increase the share of fittings in total sales volume. With the increase in the share of fittings in total sales, the margins will also improve.

New markets: Your Company is planning to increase its presence in relatively untapped markets like the north east. We have opened a warehouse in Cuttack, Odisha, in 2015 to be near the market. This warehouse has helped the company in cutting down transit time. Also, the warehouse has helped dealers to stock smaller quantities, thus saving their inventory cost.

Branding: While PVC pipes and fittings are of a commodity nature, branding still plays a very important role. Your company commands a premium of 3-5% over its peers due to its brand equity. We strive to maintain this brand. In the previous year, ₹ 30 crore, more than 1% of sales was spent on advertisement and branding activities. In first of its kind activity, 60 plumber meetings were conducted, spread over 28 states which saw an overwhelming participation of over 3000+ plumbers. Your company is the sponsor to its home team in the Indian Premier League (IPL), Pune Rising Supergiant.

Advertisement and Branding Activities

Social media campaign

Cultural event "Swarazankar" organized at Pune

Co-sponsor of "Our Marathon for breast cancer awareness" in Pune.

Kisan - 2015 in Moshi, Pune

Sponsor of Rising Pune Supergiants at IPL

Traditional festival celebration at Gujarat

Cash-n-Carry: We continue to follow the cash-n-carry business model to keep our balance sheet light. The company has negligible debtors as it receives cash up front.

New Warehouses/Dealers: The Company has added about 100 dealers across India, taking the total tally of dealers to over 700. Finolex products are now available at over 17,000 retail outlets across India.

Segment wise performance

On a standalone basis the net revenue from operations stood at INR 24,528 mn in FY16 against INR 24,761 Mn in FY15. EBITDA margin was at 15.3% in FY16, an increase of 680 bps over the previous year. Margin expansion was due to lower raw material prices and increase in volumes. Profit after Tax was INR 2,336 mn in FY16 against INR 478 mn in FY15, registering a growth of 389%.

PVC Resin

Your company has a PVC resin plant at Ratnagiri with an installed capacity of 272,000 MT PA. The resin plant was set up in 1994 which then made eminent business sense due to the high import duty on PVC resin and restricted availability. Today, the resin plant is a valuable asset to the company.

The advantage of backward integration that your Company enjoys is, a consistent supply of high quality PVC resin.

In FY16, the company produced 246,901 MT of resin (FY15 235,049 MT). The capacity utilisation in FY16 was 91% v/s 86% in FY15, an increase of 500bps. In FY16, your company sold 106,771 MT of resin (FY15 121,423 MT) in the market while rest was consumed in house. In terms of value, the revenue from the operations of resin division was INR 6,696 mn in FY16 against INR 7,792 mn in FY15. Your company is on track to increase the captive consumption of PVC resin by increasing the PVC pipes and fittings capacity.

Your company is on track to increase the captive consumption of PVC resin by increasing the capacity of PVC pipes and fittings.

PVC Pipes and Fittings

Your company has added a capacity of 30,000 MT during the year under review, taking total installed capacity to 280,000 MTPA. The total production stood at 207,163 MT at utilisation levels of 74%.

Your company sold 208,763 MT of pipes and fittings in FY16, a growth of 12.4% over FY15. In value terms the sales stood at INR 17,822 mn registering a growth of 5.2% over FY15.

Figure 7: Pipes and Fittings sales volume (MT p.a.)**Figure 8: Historical segmental revenue - Pipes and Fittings (Rs. In Million)**

Out of total sales approx. 70% was to Agri sector and 30% was to Non Agri sector.

Power segment

Your company has set up a 43MW captive power plant at Ratnagiri in order to provide uninterrupted high quality power to its production facility there. Exclusive and better quality power has led to improved productivity at the plant. During FY16 the plant generated 1,88,788 MWh.

Finolex Plasson Industries Pvt. Ltd.

Finolex Plasson Industries Private Ltd. (FPIPL) is an associate company, established in 1992. Your company holds 46% while Finolex Group (excluding FIL) and Israel-based Plaschin Ltd. hold 20% and 34%, respectively. FPIPL is in the field of Micro Irrigation in India and has successfully executed irrigation systems in various parts of the country.

FPIPL offers a wide range of products and solutions in the field of Precise Irrigation and Intensive Agriculture Cultivation.

FPIPL's solutions include complete tailored Drip and Sprinkler Irrigation Systems and Turn- Key projects for all agriculture sectors such as Row Crops, Horticulture, Green Houses, Plantations, Orchards, Nurseries and more.

FPIPL's services include Survey, Planning and Design facilities for Drip, Mini & Micro Sprinklers, Foggers, Misters, Fertigation Equipments, HDPE Sprinkler Pipes etc. for various field crops, horticulture crops, plantations, landscape, Greenhouse and Poly-house Irrigation systems, etc.

Risks and Threats:

Your Company has a well-documented risk management policy. This policy is reviewed by the Management periodically and is appropriately modified wherever necessary. The volatile movements in exchange rates caused by major global developments undoubtedly have an impact on Indian companies. But for your Company, the foreign exchange exposures are naturally hedged by future earnings linked to foreign currency due to import parity pricing of PVC resin. The volatility of crude oil prices and its derivatives is another cause for concern. We continue to import our main raw materials, viz., EDC, ethylene, VCM, and coal. Based on the operations of the Company, new risks, if any, are identified, and appropriate steps are taken to mitigate them. The surplus cash generated during the course of business is sometimes invested with banks / mutual funds. The detailed guidelines for investment of the surplus amounts have been laid down and the Management reviews these regularly. Your Company continues to accord the highest priority for safety in all of its operations. All the manufacturing facilities and processes are subject to regular inspections. A Safety Audit is carried out regularly at the PVC resin plant at Ratnagiri, and preventive measures are taken to ensure high standards of safety are met. We are proud to announce that we have completed 7.10 million man-hours without any reportable accident at the PVC resin plant at Ratnagiri. Your Company has taken adequate insurance cover for all its plants as well as for third party liabilities.

Transparency in sharing information

Transparency refers to sharing information and acting in an open manner. Processes, instructions and information are directly accessible to those concerned with them, and enough information is provided to understand and monitor them. Your Company believes in total transparency in sharing information about its business operations with all its stakeholders. Your Company strives to provide maximum possible information in the Management Discussion and Analysis which is a part of the Annual Report.

Internal control systems

The Company has put in place adequate internal control procedures, proportionate to the

nature of business and size of operations for smooth conduct of business. Internal audits are conducted at regular intervals at all the plants and cover key areas of operations. These audits are independent, objective and responsible for evaluating and improving the effectiveness of risk management, control and governance processes. An Audit Committee consisting of five independent non-executive directors, monitor the performance of the internal audits. This is conducted on a periodical basis through audit plans, audit findings and promptness of issue resolution through follow-ups.

Internal Financial Controls

The Companies Act, 2013 has made significant changes in the financial reporting requirements to bring it in line with international practices. The key requirements are entity level controls, financial reporting controls, operational controls and fraud prevention controls. The Company has in place all the required controls and the framework to identify key processes and evaluating control efficiency.

Human resources

ANNEXURE 6 TO DIRECTORS' REPORT 2015-16

The particulars of conservation of energy, technology absorption and foreign exchange earnings and outgo as required under Rule 8 of the Company (Accounts) Rules, 2014 are given below:

(A) Conservation of energy-**(i) the steps taken or impact on conservation of energy:**

VCM, PVC and CPP Plant

- A multistage centrifugal pump taking suction from an atmospheric pressure DM water tank was replaced with a new pump taking suction from a high pressure DM water network has saved 11 kw/hr.
- Direct heat recovery system of hot effluent water of poly reactors for air heating was getting fouled due to turbidity. It was converted to indirect system wherein DM water is heated with the effluent in a PHE and heated DM water is used in an air heating coil in a closed circulated system. This has resulted in steam saving of 0.8 ton per hour.
- A high capacity treated water pump P-9617 was replaced with a small capacity pump for normal operation to pump out small volumes in normal case has saved 43 KWH.
- All 3 sea water pumps in RO unit (P-3401-A/B/C) were required to run for pumping clarified water to filter stream in sea water desalination (RO) unit due to lower discharge pressure. These pumps are modified by changing to higher size impeller and installing higher rating motor. Now only 2 pumps are required for normal operation as per design. This has resulted in saving of 456 KWH per day of power and also resulted

in standby availability.

- Surplus steam at atmospheric pressure was being vented is now used in waste water stripper in VCM plant achieving steam reduction of 0.8 ton per hour.
- In the employee canteen, 76 numbers of fluorescent tube lights units (40 x 2 watt each) were replaced with 38 number of 20 watt LED tube lights to save 3 KWH units per day.

(ii) the steps taken by the Company for utilizing alternate sources of energy:

The Company decided to install a pellet making machine to convert garden garbage into compressed pellets for using in stoves in canteen. This is expected to partially replace LPG used in canteen.

(iii) the capital investment on energy conservation equipment

- Indirect heat recovery scheme of Poly reactor effluent by preheating DM water to use in air heating coils will be implemented for other 2 production lines.
- In ETF, existing high capacity cooling water pumps cater the demand during reliquefaction system which runs only 10% of time. Hence a low capacity pump to run during normal demand is being installed for power saving. Expected power saving to the tune of 25 kw/ hour.

Presently DM water from Off sites is pumped to CPP with multistage pumps of the existing system. As the head requirement for this duty is less, it is proposed either to modify existing pumps with less number of stages or to install a new low head pump for required duty so as to save power consumption.

Impact of the measures at ii) and iii) above for reduction of energy consumption and consequent impact on the cost of production of goods.

Resulted in reduction in consumption of energy and cost of production of goods.

Technology absorption

Research and Development (R&D)

1. Specific areas in which R&D has been conducted.:

- Change from crape paper bags to poly-coated paper bags of better tear resistance for EPVC bagging has reduced in improved customer acceptance.
- Vaccumizing E-1420 shell side has resulted in higher condensation of process gases and has helped in maintaining better process control at end of run condition of plant.
- Sea water was taken to both compartments of storage tank in CPP and pumped to cooling tower with suction from both compartments. Now inlet line to RHS compartment is kept closed by providing a valve and the valve in suction line from LHS too is kept closed so that water now overflows from LHS compartment to RHS compartment

thereby increasing the sand settling time and reducing turbidity from 6 NTU to 1 NTU.

- MS fusion welded studs on bed coils of Boiler No 2 are replaced with SS 304 fusion welded in May 2015 to increase the bed coil life and prolong the boiler shutdown for coil repairs. This is based on the experience with similar change in boiler No1 bed coils in Sept 2013.
- An organic waste converter of 50 kg per day capacity is installed for converting canteen food waste food to good quality manure. This has resulted in reduction of odor nuisance of canteen food waste and improved overall environmental performance.
- Up gradation of PVC cooling tower by providing additional high surface area fills in the available space has lowered down approach to wet bulb temperature. This has resulted in lower cooling water supply temperature and improved PVC reaction batch time.
- Up gradation of two cells of VCM cooling tower with GI structure replacing old timber wood structure has resulted in higher durability and also stoppage of wood in repair works. This will be done for remaining two cells in coming years.
- PVC sampling system in SPVC drying sections is modified to recycle the flushing PVC resin to avoid resin wastage. This has resulted in recovering approximately 3.6 TPA PVC back to product stream of prime quality.

(ii) the benefits derived like product improvement, cost reduction, product development or import substitution

- Improvement in reaction efficiencies
- Improvement in on stream time
- Conservation of base material
- Environmental protection and effluent quality improvement

Future plans

- It is planned to install an acoustic enclosure at one of the three Aerzen air blowers for PVC conveying and is expected to reduce the noise level from 105 dB to 90 dB.
- Reduction of Chloro acetaldehyde (CAA) impurity in furnace EDC is presently done is a batch operation. The same will be converted to a continuous process for better operational control.
- A Pellet making system comprised of coarse and fine shredders, a screw conveyor feeder, a pelletizer and a cyclone dust controller will be installed to convert garden garbage into compressed pellets which will be used for preparing food in employee canteen by using specially made stoves. This is in line with company's policy of opting for renewable energy sources wherever possible.

- It is planned to install S type drift eliminators in one of 4 cells of CPP sea water cooling tower to reduce drift losses from 0.05% to 0.001% of circulating sea water and reduction in splash of sea water to nearby structure. It is expected to reduce the structure corrosion rate. Based on performance, S type drift eliminators will be installed one by one in the remaining three cells.
- CPP coal transfer tower T4 in coal handling system supporting the coal transfer belt will be covered with PVC sheets in north end to avoid sea water corrosion. This is based on the experience with similar covering for coal transfer tower T3 during Dec 2014.
- A volute system will be installed to concentrate phosphate sludge in effluent recycle plant to improve sludge handling process.
- It is proposed to recycle high TDS effluent water by installing a full-fledged recycle plant consisting of chemical treatment, filtration, ultrafiltration and reverse osmosis. This will help the company to achieve zero effluent discharge (ZLD) norms.

(iii) in case of imported technology (imported during the last three years reckoned from the beginning of the financial year)-

- the details of technology imported;
- the year of import;
- whether the technology been fully absorbed;
- if not fully absorbed, areas where absorption has not taken place, and the reasons thereof; and

No technology imported during last three years.

(iv) the expenditure incurred on Research and Development.

- Capital
- Recurring
- Total
- Total R & D expenditure as a percentage of total turnover

The development work is carried out by the concerned departments on an ongoing basis. The expenses and the cost of assets are grouped under the respective heads.

(B) Foreign exchange earnings and Outgo-

The Foreign Exchange earned in terms of actual inflows during the year and the Foreign Exchange outgo during the year in terms of actual outflows are stated in the financial statements note no. 1.7 & 1.9 on page no.123.

Disclosures relating to

1) Accounting Treatment

The Company has complied with all applicable Accounting Standards in the preparation of financial statements pursuant to amended schedule III of the Companies Act, 2013. There are no audit qualifications in the Company's financial statements for the year under review

2) Compliance with Regulations of capital market

The Company has complied with the requirements of the Regulatory Authorities on Capital Markets. Neither has there been any instances of non-compliance by the Company on any matters related to the capital markets, nor has any penalty or strictures been imposed on the Company by the Regulatory Authorities or any statutory authority, on any matter related to capital markets, during last three years.

3) Whistle Blower Policy

In line with the best Corporate Governance practices, the Company has put in place a system through which the Directors, employees and business associates may report concerns about unethical behavior, actual or suspected fraud or violation of the Company's Code of Conduct and Ethics without fear of reprisal. The Company has put in place a process by which employees and business associates have direct access to the Audit Committee Chairperson, Managing Director, Chairperson of the Board and Compliance Officer.

The Whistle-blower Policy is placed on the notice board of the Company and on its website at www.finolexwater.com/policies.

Pursuant to Regulation 16 (1) (c) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has formulated a policy on material subsidiaries. The policy is available on website of the Company at a link: http://www.finolexwater.com/wp-content/uploads/2015/08/FIL-Policies-Master-document_revised.pdf

6) Disclosure of commodity price risks and commodity hedging activities**Commodity price risk and hedging**

For Pipes and PVC industry, the prices and costs are linked to and dependent on:

- a. same underlying commodity (crude oil) and
- b. demand supply for each component in value chain

Due to strong interdependence, any major change in price of one input or output, the prices of rest of the components in value chain are affected albeit with a lag of some time. Due to this margins are only temporarily affected whether positively or negatively, until the prices reach equilibrium. Generally, over a period of year, the impact of price movements gets compensated and results in normal margins. Hence, the commodity price movements are a temporary risk which does not need to be hedged.

Foreign exchange risk and hedging

PVC pricing is on import parity and the import parity value of sales of the Company approximately equates the USD payables on a six monthly rolling basis due to which a natural hedge exists and hence the Company does not generally need to resort to hedging by way of forward contracts, options, etc.

7) Compliance or otherwise of any requirement of Corporate Governance Report

The Company has complied with the requirements of the Corporate Governance and has made disclosures to the extent required and applicable to it, as stipulated in the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. These are the following:

- The discretionary requirements of unmodified opinion(s) in audit report, separate posts of chairperson and chief executive officer, reporting of internal auditor directly to the audit committee of Para E of Schedule II have been adopted.
- Sub-para 2 to 10 of Para C of Schedule V;
- Regulations 17 to 27; and
- Regulation 46(2) (b) to (j)

Practicing Company Secretary's Corporate Governance Certificate

The Company has obtained a certificate from practicing Company Secretary confirming compliance of the conditions of Corporate Governance as stipulated in Para E of Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Clause 49 of the erstwhile Listing Agreement. The Certificate is annexed to this Report.

Independent auditors' Report

TO THE MEMBERS OF FINOLEX INDUSTRIES LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **Finolex Industries Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2016 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2016 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2016 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – refer note 1.2 to the standalone financial statements.
 - ii. The Company did not have any long term contracts including derivative contracts, having any material foreseeable losses.

Annexure A

Referred to in paragraph 1 under the heading, "Report on Other legal and Regulatory Requirements" of our report on even date:

- (i) (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The fixed assets are being physically verified by the management at regular intervals based on the programme of verification which in our opinion is reasonable. Part of the major fixed assets has been verified by the management in the current year and discrepancies noticed on such physical verification were not material and the same have been properly dealt with in the books of account.
- (c) The title deeds of immovable properties are held in the name of the company.
- (ii) Physical verification of inventory has been conducted by the management during the current year. In our opinion, the interval of such verification is reasonable. Discrepancies noticed on physical verification were not material and the same have been properly dealt with in the books of account.
- (iii) The company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013 in the current year. Accordingly, clause (iii) (a), (b) and (c) are not applicable to the Company.
- (iv) According to the information and explanations provided to us, in respect of loans, investments, guarantees, and security; provisions of section 185 and 186 of the Companies Act, 2013 have been complied with.
- (v) According to information and explanation provided to us, the Company has not accepted deposits, hence the directives issued by the Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act and the rules framed there under, are not applicable to it. According to information and explanation provided to us, no order has been passed by Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other tribunal.
- (vi) We have broadly reviewed the books of account relating to materials, labour and other items of cost maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under sub-section (l) of section 148 of the Companies Act, 2013 and we are of the opinion that prima facie the prescribed accounts and records have been made and maintained. We have not however made a detailed examination of records with a view to determine whether they are accurate and complete.
- (vii) (a) The Company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and any other statutory dues with the appropriate authorities. According to the information and explanation provided to us, no undisputed amounts payable in respect of statutory dues were in arrears as at 31st March, 2016, for a period more than six months from the date they became payable.

- (b) According to the information and explanation provided to us, there are no dues of income tax, sales tax, service tax, duty of customs, duty of excise, value added tax or cess which have not been deposited on account of any dispute except those mentioned below:

Annexure B

To the Independent Auditors' Report of even date on the standalone financial statements of Finolex Industries Limited

Report on the Internal Financial Controls

Under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Finolex Industries Limited ("the Company") as of 31st March, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements

Note 1) Significant Accounting Policies

i) Basis of preparation:

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the Accounting Standards specified under Section 133 of the Companies Act 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provision of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies adopted in the preparation of financial statements are consistent with those of the previous year.

ii) Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, current assets, non-current assets, current liabilities and non-current liabilities and the disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

iii) Valuation of inventories:

Inventories are valued at lower of cost and net realizable value. Cost is determined on moving weighted average method. Cost of inventories comprises of cost of materials, conversion cost, other cost incurred in bringing the inventories to their present location and condition and excise duty wherever applicable.

iv) Cash and cash equivalents:

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash which are subject to an insignificant risk of changes in value.

v) Depreciation:

Depreciation on fixed assets has been provided in a manner that amortizes the cost of the assets over their estimated useful lives on straight line method as per the useful life prescribed under Schedule- II to the Companies Act, 2013 except in the case of Captive Power Plant where the management, based on a technical evaluation, have estimated the life to be 25 years which is lower than the life prescribed in Schedule – II

Amortisation is provided in respect of leasehold land over the period of lease.

vi) Revenue recognition:

Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer.

Where the ability to assess the ultimate collection with reasonable certainty is lacking at the time of raising any claim, revenue recognition is postponed to the extent of uncertainty involved. In such cases revenue is recognized only when it is reasonably certain that the ultimate collection will be made.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend from investments is not recognized in the profit and loss statement until a right to receive payment is established in the reporting period.

vii) Fixed assets:

Fixed Assets are stated at cost of acquisition or construction less accumulated depreciation. Attributable finance costs and expenses of bringing the respective assets to working condition for their intended use are capitalised. Borrowing costs that are directly attributable to the acquisition or production of a qualifying asset are capitalised as part of the cost of those assets. Other borrowing costs are recognised as expense in the period in which they are incurred.

viii) Foreign currency transactions:

Initial recognition: A foreign currency transaction is recorded on initial recognition in the reporting currency by applying to the foreign currency amount, the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion: At the year end, monetary items denominated in foreign currencies are converted into rupee equivalents at the year-end exchange rates.

Exchange differences: All exchange differences arising on settlement/conversion on foreign currency transactions are included in the Profit and Loss Statement.

In accordance with MCA notification on Accounting Standard 11 (AS 11), in respect of long term foreign currency loan taken for acquisition of assets, the exchange difference arising on reporting of said loan is adjusted to the cost of the respective assets.

Forward exchange contracts: The Company uses foreign exchange forward contracts and options to hedge its risks associated with foreign currency fluctuations.

Forward contracts/options entered into to hedge foreign currency risk on underlying liabilities are accounted as per Accounting Standard 11, "The Effects of changes in Foreign Exchange Rates". The premium arising at the inception of such forward contracts/options is amortised as expense over the life of the contract. Gains and losses arising on account of roll over/cancellation of forward contracts are recognised as income/ expense of the period in which such roll over/cancellation takes place.

Forward contracts/options entered into to hedge foreign currency risk on unexecuted firm commitments are accounted, keeping in view the principle of prudence as enunciated in AS 1, "Disclosure of Accounting Policies"; in pursuance of the announcement of the ICAI dated March 29, 2008 on Accounting for Derivative Losses.

ix) Accounting for Government Grants

Government grants available to the enterprise are considered for inclusion in accounts:

(i) where there is reasonable assurance that the enterprise will comply with the conditions attached to them; and (ii) where such benefits have been earned by the enterprise and it is reasonably certain that the ultimate collection will be made.

Government grants in the nature of promoters' contribution, i.e., they are given with reference to the total investment in undertaking or by way of contribution towards its total capital outlay and no repayment is ordinarily expected in respect thereof are treated as capital reserve.

Government grants related to revenue are recognised on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate. Such grants are shown separately under 'other income'.

x) Valuation of investments:

Investments that are readily realizable and intended to be held for not more than a year from the date on which such investment is made are classified as current investments. All other investments are classified as long-term investments.

Current investments are carried at lower of cost and fair value determined on an individual investment basis.

Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of such investments.

xi) Employee benefits:

I. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the services are classified as short term employee benefits. Benefits such as salaries, wages, expected cost of bonus and short term compensated absences, etc. is recognized in the period in which the employee renders the related service.

II. Post-employment benefits

a) Defined contribution plans

The Company's superannuation scheme, state governed provident fund and employee state insurance scheme are defined contribution plans. The contribution paid/payable under the scheme is recognized during the period in which the employee renders the related service.

b) Defined benefit plans

The employees' gratuity fund scheme is the Company's defined benefit plan. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial

gains and losses are recognized immediately in the Profit & Loss Statement. The fair value of the plan's assets is reduced from the gross obligation under the defined benefit plans, to recognize the obligation on net basis. Gains or a loss on the curtailment or settlement of the defined benefit plan is recognized, when the curtailment or settlement occurs. Past service cost is recognized as expenses on a straight-line basis over the average period until the benefits become vested.

III. Long term employee benefits

The obligation of long term compensated absences are recognized in the same manner as in the case of defined benefit plans as mentioned in note II (b) above. Accumulated leaves that are expected to be utilized within the next 12 months are treated as short term employee benefits.

xii) Segment accounting:

The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocable items

Unallocable items include general corporate income and expense items which are not allocated to any business segment.

Inter-segment

Segment revenue from intersegment transactions is accounted on the basis of transfer price agreed between the segments.

Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

xiii) Accounting for leases:

Assets taken on lease where significant portion of risk and rewards incidental to the ownership are not transferred are treated as operating leases. Operating lease payments are recognised as an expense in the Profit and Loss Statement on straight line basis over the lease term.

xiv) Earnings per share:

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity Shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

xv) Taxes on income:

Tax on income for the current period is determined on the basis of taxable income after considering the various deductions available under The Income Tax Act, 1961.

Deferred tax is recognized on timing differences between the accounting income and the taxable income for the year. The tax effect is calculated on the accumulated timing differences at the end of the accounting period based on prevailing enacted or substantively enacted regulations.

Deferred tax liabilities are recognized for all timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. At each reporting date the company reassesses the unrecognized deferred tax assets and reviews the deferred tax assets recognized.

xvi) Intangible assets:

Intangible Assets are amortised over the useful life of the assets on Straight Line Method over a period of 6 years.

Research and development costs are expensed out as and when incurred, except for development costs which relate to the design and testing of new or improved material, products or processes which are recognized as an asset, when it is expected that such assets will generate future economic benefits.

xvii) Impairment policy:

The company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

xviii) Provisions:

A provision is recognized when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

xix) Contingent liability:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

Annexure I

To the Independent Auditors' Report of even date on the consolidated financial statements of Finolex Industries Limited

Report on the Internal Financial Controls

Under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March, 2016, we have audited the internal financial controls over financial reporting of **Finolex Industries Limited** (hereinafter referred to as "the Holding Company") and its associate, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding company and its associate, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company and its associate's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the

assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company and its associate's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its associate, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating

effectiveness of the internal financial controls over financial reporting insofar as it relates the associate company, which is a company incorporated in India, is based on the corresponding reports of the auditors of the company incorporated in India.

Notes to the consolidated financial statements

Note 1) Significant Accounting Policies:

Principles of consolidation:

The consolidated financial statements relate to Finolex Industries Limited (FIL) and its associate Finolex Plasson Industries Private Limited (FPIL).

Investment in Associate Company has been accounted under the equity method as per Accounting Standard (AS) 23 "Accounting for Investments in Associates in Consolidated Financial Statements", whereby the investment is initially recorded at cost, identifying any goodwill/capital reserve arising at the time of acquisition. The carrying amount of the investment is adjusted thereafter for the post acquisition change in the Company's share of net assets of the Associate company.

The excess of cost to the Company of its investment in the Associate entity is set off against the adjusted carrying amount of the investment. Distributions received from the Associate Company reduce the carrying amount of the investment.

The consolidated statement of profit and loss reflects the Company's share of the results of the operations of the Associate Company.

Unrealised profits and losses resulting from transactions between the Associate and the Company are eliminated to the extent of Company's interest in the associate.

The name of associate, country of incorporation, proportion of ownership interest and reporting date considered in the Consolidated Financial Statements are as per the table mentioned below:

Name of the Company	Country of Incorporation	Proportion of Ownership Interest of FIL	Reporting Date
Finolex Plasson Industries Pvt. Ltd.	India	46.35%	31 st March 2016

Significant Accounting Policies:

Accounting policies of Finolex Industries Limited are set out in Note 1: significant accounting policies of the company.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate financial statements except those specified below.

Significant Accounting Policies other than those adopted by Finolex Industries Limited:

i) Valuation of inventories:

Raw materials and components, stores and spares are valued at lower of cost or net realizable value. Cost is determined on First In First Out (FIFO) basis.

ii) Revenue recognition:

Income from services is recognized when the services are rendered or when the contracted milestone is achieved.

iii) **Intangible assets:**

Intangible assets are amortised over their estimated useful life on straight line method as follows:

Technical Know how- 10 Years

The estimated useful life of the intangible assets and the amortisation period are reviewed at the end of each financial year and the amortisation period is revised to reflect the changed pattern, if any.

iv) **Provisions:**

Provision for warranty obligations is based on technical evaluation and past Experience or trend.

Explanatory Statement pursuant to section 102 of the Companies Act, 2013 (the “Act”) sets out material facts relating to the business mentioned at Item nos. 5 to 8 of the accompanying notice dated 21st May, 2016.

Item No. 5

In terms of the provisions of section 148 of the Companies Act, 2013 (the “Act”) the Board of Directors (the “Board”) at its meeting held on 21st May, 2016 has, on the recommendation of the Audit Committee, approved the appointment of M/s. S. R. Bhargave & Co., Cost Auditor, for the audit of cost records maintained by the Company as per the requirements of the Act and Rules made thereunder for the financial year ending 31st March, 2017. As approved by the Board, the annual remuneration payable to M/s. S. R. Bhargave & Co. for the financial year ending 31st March, 2017 is ₹ 4,00,000 and reimbursement of out of pocket expenses at actuals plus service tax, as applicable.

M/s. S. R. Bhargave & Co. have submitted a letter regarding their eligibility for appointment as Cost Auditors.

As per rule 14 of the Companies (Audit and Auditors) Rules, 2014, the remuneration of M/s. S. R. Bhargave & Co., Cost Auditor shall be ratified by the Members. Hence, this resolution is put for consideration of the Members.

None of the directors or key managerial personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the resolution set out at Item no. 5, except as Members of the Company.

Item No. 6

Pursuant to the provisions of section 42 of the Act read with the Companies (Prospectus and Allotment of Securities) Rules, 2014 and the Companies (Share Capital and Debentures) Rules, 2014, (hereinafter collectively referred to as the “Rules”), the Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 and SEBI (Listing Obligations and Disclosures Requirements) Regulations 2015, a company offering or making an invitation to subscribe to secured Non-Convertible Debentures (“NCDs”) on a private placement basis is required to obtain the prior approval of the Members by way of a special resolution. Such an approval by way of special resolution can be obtained once a year for all the offers and invitations for such NCDs during the year.

NCDs issued on private placement basis are a significant source of borrowings for the Company. The secured borrowings of the Company as on 31st March, 2016 aggregate to ₹ 21,171.20 lakhs (approximately), of which, NCDs aggregate to approximately ₹ 10,000.00 lakhs.

The approval of the Members is being sought by way of a special resolution under sections 42 and 71 of the Act read with the Rules made thereunder to enable the Company to offer or invite subscription for secured NCDs on a private placement basis, in one or more tranches during

the period of one year from the date of passing of the resolution at Item No. 6, within the overall borrowing limits of the Company, as approved by the Members from time to time.

The Board recommends the resolution set out at Item no. 6 for approval of the Members.

None of the directors or key managerial personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the resolution set out at Item no. 6.
